

2026

AEW Summer Intern Program

AEW is seeking rising college juniors for Summer 2026 internships. This is an 8-10 week, rotational experience that includes exposure to all facets of the CRE industry and a deal presentation at the conclusion. The Summer (mid-May – early August) session includes the following elements:

Introduction & Company Orientation

- HR orientation
- Compliance orientation (orientation to regulatory and compliance landscape at AEW)
- IT Orientation (deep dive into the typical tools we use – Email, SharePoint, Yammer, Teams)
- Intro to networking expectations – pick a person each week to have coffee/lunch with – outline sample conversations, talk about a strategy for who/how/when.
- Learning opportunities and/or technical training– leverage LinkedIn Learning on-demand content and/or other programming available to us through IT

Mini Boot Camp

- Participation in AEW Academy programming
- Real estate introduction
- Tours to learn about the different asset classes.
- Excel, Bloomberg, RCA/CoStar and Argus training.

Case study work with the team members across business functions including Acquisitions and Asset Management

- What was the investment thesis, the business plan, what did we encounter along the way (what went right, what went wrong)?
- What was leasing like?
- How did the disposition go and what was the end result?

Working through a real-life deal, interns will meet with Acquisitions, Asset Management, A&E, Legal, Capital Markets, IR, Research and Insurance. Accounting to understand all of the disciplines and considerations that are necessary to complete an investment.

This is an excellent opportunity for someone with some CRE experience to take a deeper dive into the deal life cycle and come away aware of the range of career opportunities in the industry and withing AEW specifically. Candidates should bring good analytical skills, a willingness to embrace networking opportunities and a strong curiosity in the CRE industry.
